4

Diagram 4 illustrates the assembly of the window frame. The main view shows the frame with green insulation and a red box highlighting the corner detail. Below the main view are two inset diagrams: the left one shows a cross-section of the frame corner with a red arrow indicating the direction of the green insulation layer, and the right one shows a cross-section of the frame corner with a red arrow indicating the direction of the green insulation layer.

5

25 mm

The diagram illustrates the fifth step of window installation. It shows a perspective view of a window frame being mounted onto a roof. The frame is composed of several grey metal or plastic sections. Green L-shaped brackets are used to secure the frame to the underlying wooden roof structure. Red dashed lines indicate the intended positions for these brackets. A red hammer is shown in the process of driving a red nail into one of the brackets. A red square highlights the specific point of contact between the bracket and the frame. An inset at the bottom left provides a detailed close-up of a red nail being driven into a green bracket, which is attached to a wooden beam.
